Rochester, Mich.---Nov. 3, 2017---Doolin Haddad Advanced Dentistry, a Rochester, Michigan, dental practice focusing on cosmetic, implant and restorative dentistry and serving the greater Rochester area for more than 25 years, invites the community to an informative update on new cosmetic and restorative dental options that enhance overall health and wellness. Dr. Kurt Doolin, Dr. Jeff Haddad and Dr. Marco Tironi will present “Learn What Modern Dentistry Can Do for You” on Wednesday, Nov. 29, 6:30 p.m.–8 p.m. at the OPC, 650 Letica Dr., Rochester. The event is free and open to the public.

“Overall quality of life depends on good oral health, but many people don’t know what that means beyond getting regular dental check-ups,” Dr. Kurt Doolin explained. “For example, conditions that impact overall health, such as sleep apnea, recurring headaches, TMJ and snoring, can be alleviated and often resolved with modern restorative dental treatment options.”

“Cosmetic dentistry also enhances overall health,” Dr. Jeff Haddad added. “With teeth that properly support a person’s face, the result is a more youthful and pleasant appearance. This in turn gives individuals a new sense of confidence and positively impacts how they are received and how they interact with the public.”

Both dentists believe that increased education on the benefits of a healthy smile, wanting to have a business edge, improved quality of life and even social media are key motivators behind the increase in teeth whitening, dental implants, smile makeovers and restorative dentistry.

Topics Doolin Haddad dentists will cover in the presentation are:

- TMJ
- Headaches
- Sleep Apnea
- Snoring
- Dental Implants
- Smile Makeovers—teeth whitening, porcelain veneers, gum reshaping and other cosmetic procedures
